

# Submission Requirements & Guidelines

All projects for Sofstica Hackathon 2026 must be submitted through the official submission portal before the submission deadline. The portal will automatically close once the submission window ends. Late or incomplete submissions will not be considered.

## Mandatory Submission Requirements

### • Submission Deadline

Submit your project within the official submission window. The portal will automatically close at the deadline. No late submissions or extensions will be accepted.

### • Project Theme

Select the hackathon theme assigned to or chosen for your project from the dropdown menu. Ensure the selected theme accurately reflects your submission, as it will be used during the evaluation process.

### • Working Prototype (MVP)

Your submission must include a functional prototype that demonstrates the core solution. Projects consisting solely of UI mockups, wireframes, presentations, or incomplete implementations may be disqualified.

### • Project Description (Maximum 1,000 characters)

Provide a concise overview of your project covering, basically Pitch or sell your idea:

1. What you built.
2. The problem your solution addresses.
3. How your solution works.
4. What you would improve or add if given more time.

### • Public GitHub Repository

Submit a publicly accessible GitHub repository containing the complete source code and a comprehensive README that describes what you built, the problem your solution addresses, how it works, and what you would improve or add with more time.

The repository must also include setup and installation instructions, along with any required configuration, dependencies, or additional documentation necessary for reviewers to successfully build, run, and evaluate the project.

### • Project Links

Provide one or more of the following:

- Live application/demo
- Demo video (e.g., YouTube or Loom)
- Presentation slides or supporting documentation

### • Resume/CV Upload

Individual Submission: Upload one CV (PDF, DOC, or DOCX).

Team Submission: Upload one CV for each registered team member (minimum 2, maximum 5), with combined files not exceeding 5 MB.

One Submission Only: Only one final submission is permitted per individual or team. Once submitted, the entry is considered final and cannot be modified.

### • Eligibility & Originality Declaration

Participants must acknowledge the Eligibility, Consent & Originality Declaration before submitting their project.
